

bigdadray58's 1953 Harley K-model

This 1953 K-model has a low serial number of 1911. It is a rare model.

A great rare bike, rebuilt motor and tranny, it's 90 % restored.

Front fender has been chopped, and is not the correct "flip" on the rear edge. Strut on fender reveal it to be a later model Sportster fender, due to longer flat section where it rivets to the fender.

Chrome tail lamp is aftermarket, original was black.
