

rockerbox69's 1956 Harley K-model

This is a 1956 Harley Davidson KHK that is 90% restored.

This is a rare motorcycle, these are getting hard to find. As you can see from pics . this was done right. The case

numbers match. This bike has not yet been started after the rebuild. The bike

needs a battery, oil, and spark plug wires

It has new rods, pistons, and valves. The motor is all-new and never started. This little bike is sweet.
