

fhatty's 1968 Sportster collectors bike

This is my 1968 restored Sportster, casing numbers match, no repairs on the cases.

With the exception of the Corbin seat and the Progressive shocks this bike is built bone stock. It has all new paint (original sparkling blue), fresh motor. Chrome from Brown's Plating and cadmium plating, all new. The internals on the throttle and the mag are installed

and in great working order.
