

mworks2012's 1971 Sportster 900cc XLCH

This is my 1971 Harley Davidson Sportster 900 cc XLCH.

The bike has no issues, it runs and rides great. This old XLCH is a 4-speed kickstart-only bike. It has buckhorn 2-piece handlebars with internal throttle cables. The bike has great brakes and needs nothing, its ready to ride. Even the tires have 90 % of their tread left. This bike is ready as is or great for bobber chopper project.
