

# mountainstatesales69's 1974 hot rod XLH

**This is my beautiful custom Harley 74 XLH  
Sportster.**

I bought this for my old lady but she is short and can't straddle it. This is a 1000cc bored to 1200cc with 9.5 to 1 pistons. It has electric and kick start.

It has newer tires and wheels, alternator conversion, starter, clutch, coil, wires, battery and numerous custom touches and additions. Real eyecatcher.

Everything that can be chromed or billet, is. Swingarm primary covers, shocks oiltank. Battery box, forward controls.. Many flame accents as well on fat bob tank, mirrors, exhaust, engine covers, seat. Pictures don't do it justice. One of last years of right hand shift. Has a two-up seat and new sissy bar for riding double.
