

genevacycleatv's 1975 Sportster XLCH

This is a vintage classic old-school Harley-Davidson XLCH 1000 Sportster.

This bike will be a great candidate for restoration project or to convert it in to a cool bobber cafe racer chopper or parts bike. This bike has 24,000 miles on it. The bike is 99% complete but does not have any turn signals.

This bike does not run, the motor is locked up. The transmission will shift through all 4 speeds. I think the top end is the part that's locked up. The bike has been sitting for years the tires are dry rotted the chrome on the wheels have rust pitting.
