

littleace1's 1975 cool old Ironhead

This is my 1975 Harley Davidson Sportster. It's a 1000cc iron head.

I have owned the bike for 25 years. It has not been run much in last 4 years. It was painted 3 years ago. I put on new tires and a battery. I is a very fast and dependable bike. It starts hard now.

When first starting pushes oil out over flow then runs OK. It needs to be gone through. It has new mirrors and solo seat. I also just put on new rotor, caliper, and pads on front.
