

USA cycles' 1975 factory survivor

This is a one owner 1975 XLH 1000 Harley Sportster with 9,233 original miles.

Everything works as it should. It starts, stops, and shifts like it did when it was new. This Sportster is in excellent running condition. It has original factory paint "sunburst burgundy," tank decals, and the original exhaust. It look's and run's like just like factory new. Some of the original parts have been chromed. The seat not original to the motorcycle, it was replaced with a more comfortable one.
