

rogerstruck's unabused 1976 XLCH

This is my 1976 Harley Davidson XLCH Sportster.

This bike runs very well and is easy to start. This is a two adult owner motorcycle that was never abused. The carburetor and air filter are by S&S. The motor has never been apart. It does not leak any oil, smoke or have any unusual noises. It has good compression and is powerful. Dunlop tires, original paint. The wiring harness and electrical connections have not been tampered with.
