

# technoz1's cherry 1979 XLH Sportster

Here is my 1979 Harley XLH 1000 Sportster in red.

Its all original except it had dealer-installed front highway peg's (OEM) and rear seat sissy bar (OEM) and exhaust (Cycle Shack). It was bought from our neighbor in September of 1983 and ridden rarely. It was started every once in awhile in the heated garage. The tires were replaced and are original OEM, bike has been serviced at Suburban Harley in Palatine for oil changes. We did notice a dent on the left side gas tank it's very

very small barely noticeable.. but everything else is mint.
