

spikemike5's 1983 Sportster xlx

This is my 83 Harley XLX 1000cc Ironhead Sportster.

The bike is fully rebuilt from the frame up. The motor is totally rebuilt from the cases up. 0 miles on build and only 6,000 miles on bike prior to rebuild. A super clean bike. It needs nothing, also has newer tires, new battery, new wiring, o-ring

chain, mid sized ape hangers, solo bobber seat, peanut tank, flat black paint, dual disc front end, drag pipes, Mikuni carb, progressive lowering shocks. bike looks and rides awesome.
