

sinisterkustoms' 1985 XLH iron Sportster

This is a rare, unmolested early 1985 1000cc iron head XLH Sportster.

Attention all Harley Davidson collectors. According to Milwaukee only 1500 of these were made during the first 6 months of 1985. This was before the late 1985 883cc Evo model was introduced. This bike has had 3 owners - only 7322 original miles verifiable through Harley service records. This bike is like new, has an original seat - it has no leaks.
